★ The Semco Promise ★

Semco Stone owns and operates our own quarries. We pride ourselves in providing a natural and quality product. Our diverse landscape stone and building stone have some of the most unique products you will find. The beauty of our products is they are made from natural stone, therefore variations should and can be expected. Even though colors in our brochures are as close to the actual stone as possible, photographic and printing techniques – and even actual viewing conditions – can alter perception of color.

Selections should be made from actual samples whenever possible. Our samples represent the general characteristics of the stone. Natural variations can and will occur in size, color, and texture. Our samples are not to be interpreted as the only size within a sample range. Newly quarried stone can oxidize, darken, lighten, or otherwise change from the appearance either shown in the samples or represented in stock. Semco Stone does the best we can to maintain consistent colors and textures. Communication is key with landscapers, homeowners, masons, contractors and your sales representative so that Semco Stone can do our best to provide exactly what you need to complete your dream project.

As the largest distributor of natural stone products in the Midwest, at Semco Stone, we have earned our reputation through consistent products, advancements in technology, and quality and service that exceed industry standards, laying a solid groundwork for your success. If you are unclear about how your stone will arrive or what to expect when it is installed, ask a Semco Stone representative now. We operate to ensure lasting satisfaction and something our customers can enjoy for years to come.

"People don't buy what you do; they buy why you do it. And what you do simply proves what you believe."

» WHY SEMCO STONE?

For over 30 years, Semco Stone has been setting the standards for quality in natural building stone veneer and landscape stone. Located in Missouri, near the Mississippi River, Semco Stone resides in the heart of Limestone Country. Our product offerings include – natural building stone veneer, landscape stone, a variety of retaining wall stone, natural and man-made paving materials, slabs, and so much more! We have provided the elegant beauty of Mother Nature's time-tested products to contractors, developers, wholesalers, distributors, nurseries, landscapers, garden centers, and retail outlets across the country since 1988.

WE QUARRY.

Our local quarries Blue River and Cedar Ridge provide a bountiful harvest of eight distinctively different limestones. And our Brentwood Quarry boasts a beautiful sandstone.

WE FABRICATE.

Semco Stone has a fabrication facility, tumbling and bagging operations. In order to serve our customers better we are always striving to exceed industry standards through advancements in technology.

WE STOCK.

As the largest distributor of natural stone in the Midwest, Semco Stone's Perryville, Missouri yard occupies over 60 acres with an abundant inventory of both landscape and building stone.

WE DELIVER.

Whether dispatching our own fleet of equipment regionally, or utilizing our vast partnerships in the transportation industry nationally, we have all logistics needs covered.

LET'S GET SOCIAL

Semco Stone is ready to connect with you!

» SEMCO STONE OFFERS MORE LOCATIONS TO SERVE YOU BETTER

Semco Stone has a long-standing reputation for quality when it comes to both our products and our locations. Our large, wide-open facilities feature some of the most organized stone yards in the country with a vast selection of products. Our interior and exterior showrooms offer an inspirational and innovative environment to see installed applications of our products. Our goal is to help you find the natural stone that best suits your project's needs. With Semco Outdoor locations in Cincinnati, OH, Columbus, OH and Kansas City, MO and our parent company, Semco Stone in Perryville, MO, we proudly serve clients all across the United States.

Quarry Direct PROGRAM

Are you looking for a competitive edge in your market? Semco Stone offers a Quarry Direct Program to give our customers an opportunity to buy product direct from the quarry and save money! There are also products available at the quarries that are not available off one of our stock yards.

Buy DIRECT from the Quarry & SAVE TONS!

For more information contact your Semco Sales Representative. Full trailer loads only (23 to 24 tons are on a full trailer load). No discounts or other promotions can be applied. Freight from the quarry applies.

8" DRYWALL COLLECTION

Installed either dry stacked or mortared, our natural stone retaining walls have an unparalleled beauty. Our 8" Drywall products are available in a variety of stones, whether you are looking for the rugged look of natural bed heights or the more formal appearance of sawn heights. Heights of this stone range from 2" to 8" and typically has random lengths, with snapped depths of approximately 8".

NATURAL WALL COLLECTION

Natural Wall lends itself to easy construction and allows a landscaper more design flexibility. Retaining walls constructed of Natural Stone enhance any landscape throughout seasonal changes and over time.

Available in selections which include weathered, split, or tumbled. These stones will range in size from 6" to 24" in diameter, with thickness between 1" and 6" depending upon your stone choice. We have a wide array of colors that can complement any existing exterior landscape.

“

"We were building a new home in St. Louis and our masonry contractor recommended that we visit the Semco facility in Perryville. What an amazing place! The product selection is unmatched and the variety of stone and other materials enabled us to pick out all of the materials we need. The fantastic team at Semco guided us through the entire process of picking out Stone for our house and all the materials needed for our outdoor grill area and outdoor fireplace for the Veranda. I would highly recommend that anyone building a new house start with a visit to Semco Stone!" ~ Jim and Kate, Creve Coeur, MO ★ ★ ★ ★ ★

STEPPERS COLLECTION

Mortared or dry stacked, Steppers can be used for small retaining walls, as stepping stones, or for walkways. Small size and irregular shapes are indicative of this natural stone material. Steppers are typically between 1/2" to 2" thick with diameters that range from 6" for Shims to 36" for our largest Stepper. This stone is available in many of the same selections as our flagstone material, in a variety of colors and sizes.

COBBLES COLLECTION

Used mostly in water features, these smooth textured rounded stones offer a unique accent to any landscape project. Cobbles can also be used as edging, in dry creek beds, or to accent plant beds. The small size of these stones allows for easy handling and rapid installation. Cobbles are available in sizes that range from 1" to 18" in diameter in an endless assortment of colors to choose from.

is a specially formulated high performance mix of graded sand and binding agent to fill paver and natural stone joints. Available in beige, black and gray.

OUTDOOR FIREPLACE KITS

Relaxing is simple with a Semco Stone fireplace. These outdoor fireplace kits are the perfect centerpiece for any outdoor living space or kitchen that is sure to become a place of fun and memories for friends and family. Imagine roasting marshmallows over a crackling fire or enjoying your favorite beverage fireside. Now, that's what we call relaxing!

FIRE FACTS:

48% of homeowners plan to add an outdoor fire feature to an existing space.

"Outdoor fireplaces are one of the most popular outdoor living design trends right now, and with good reason: they add a unique, fun and relaxing element to any outdoor space." Source: HGTV

OUTDOOR KITCHEN KITS

Outdoor Kitchen Kits by Semco offer quality, strength, and durability, as well as unparalleled design flexibility for any outdoor kitchen and entertaining areas.

The patented system can create infinitely configurable kitchen island layouts that assemble in minutes. The idea is to keep the process simple so you can enjoy your outdoor kitchen as soon as possible! These kits are a better, faster, and easier way to build your kitchen and outdoor living space.

Shown Below: 9' Straight Outdoor Kitchen & Fireplace

9' Straight Outdoor Kitchen Kit

9' L-Shaped Outdoor Kitchen Kit

12' Straight Outdoor Kitchen Kit

PIZZA OVEN KITS

Our Pizza Oven Kits help backyard chefs easily create delicious meals with the unique and wonderful flavor of cooking with real wood! Featuring an arched cooking chamber, kits include firebrick, the 9" chimney flue and metal oven door. These kits are an outstanding value, offering excellent performance, incredible versatility, and simple, labor-saving construction, and are designed for seamless compatibility with our outdoor kitchens and fireplace kits.

YARD BENCHES

Add a personal touch to your outdoor space with the addition of a Natural Stone Yard Bench available in either Blue River and Brentwood.

Blue River Benches are available in lengths of 3' or 4' and are 18" deep and 18" tall. Blue River Bench top & legs come with a standard thermal finish.

Brentwood Benches are 40" – 42" long and 16" deep and 18 ¼" tall and are available with polished top and legs or sawn top & legs.

Custom Blue River Bench

Brentwood Benches

Blue River Bench

Please call for lead times on all benches as quantities may be limited and vary by color.

NATURAL STONE FIRE PITS

Enjoy the warmth of an outdoor fire and the modern style of our fire pit kits. The beautiful natural stone texture complements any landscape and the dimensional shape means fast installation and no waste.

An insert is recommended to keep heat away from the stone.

Basalt Fire Pit

CUSTOM CUT NATURAL STONE

UNIQUE: The diversity of natural stone products from Semco Stone encourages limitless design potential. Aesthetically, what you do with the stone is as varied as your imagination.

QUALITY: Semco Stone prides ourselves on providing high-quality natural stone products and we are committed to delivering the best.

INNOVATIVE: Nothing provides that unique look like natural stone, from exterior stone cladding, to window or door surrounds, profiles to straight cuts, inlined or curved cuts, holes and laser engravings. We are ready to make your project a reality with natural stone.

VALUE: Utilizing natural stone is now more affordable than ever due to advancing stone quarrying and processing technology that has improved efficiency over the years. The value in natural stone is more than a monetary measure. It involves longevity, ease of maintenance, permanence and stability that far exceed the initial investment.

AIA CONTINUING EDUCATION

Let us help your firm meet its Continuing Professional Education requirements. Our program is open to architects throughout the entire United States. Contact us today to schedule a presentation by one of our trained professionals.

Our Semco Stone continuing education program gives architects and designers a behind-the-scenes look at the Sandstone and Limestone Quarrying process. The topics we will discuss can help you determine where natural stone is a good fit. The presentation is approved through AIA, LACES, IDCEC and NKBA for one HSW Learning Unit.

HEARTHSTONES & MANTLES

Hearthstones and Mantles by Semco Stone are the final touch to your masterpiece. A natural stone hearth can enhance your fireplace design both in character and texture. Hearthstones and Mantles can be custom cut and finished to your specifications. Contact your sales representative for more information.

CAPS & COPING

Caps and Coping are the perfect complement to our natural stone veneers. Available either snapped or sawn they give your project the finished detail for countless applications. The possibilities are endless from pool surrounds to the finishing touch on columns, piers, entrance monuments, staircases and so much more. Caps and Coping are available in various finishes.

 **CUSTOM FABRICATION**

SEE PAGE 116 AND 117 FOR FINISHES AND DECORATIVE EDGE OPTIONS

KEYSTONES

Keystones give the finishing touch to doors or other masonry openings to enrich the overall finish of your project. The sides can be sawn or snapped for a formal, rustic, contemporary or classic appearance. Keystones are available in various finishes.

SILLS

Sills can be used under windows and at the top of a stone wains coat. Our sills can be custom cut and finished to your specifications, as pictured left. Our standard sills are sawn on the top, bottom, ends and back with your choice of snapped or sawn-face. Sills are available in various finishes.

QUOINS

Quoins give the finishing touch to corners or entryways and complement any of our veneer blends. Each piece has a snapped face and end. The top and bottom of the Quoins are available as sawn or snapped. Quoins are available in various finishes.

TRIMSTONES

Trimstones are pre-cut stones used to stack either around or above windows and doors. They can be utilized either horizontally or vertically. Each piece has a snapped face and ends, and are sawn on top and bottom. Both heights are available in full veneer or ThinCut™.

STEPS & TREADS

Whether used for an indoor staircase, or exterior entrance, Semco Stone can produce custom Steps and Treads to complete your natural stone project. Steps and Treads can be custom cut and finished to your specifications, contact your sales representative for more information.

SEE PAGE 116 AND 117 FOR FINISHES AND DECORATIVE EDGE OPTIONS

NATURAL STONE COUNTERTOPS

Semco Stone Natural Stone Countertops offer a perfect harmony of performance and beauty in both indoor and outdoor applications. Natural Stone countertops from Semco Stone can meet both the needs of your lifestyle and the demands of your inspiration. Our Countertops can be custom cut to your specifications, contact your sales representative for more information. See page 116 and 117 for finish options.

MONUMENTAL SIGNS

We all know first impressions are important. Semco Stone has created hundreds of great first impressions for neighborhoods, corporate offices and retail stores across the country. We are experienced in producing custom designed monuments, memorials and entrance signs for many unique projects over the years.

Semco Stone has a wide variety of colors, sizes and shapes that can help your project stand out. Semco Stone will custom cut to your specifications. Contact your sales representative for more information.

PROJECT BELOW: This breathtaking Memorial Wall located in Perryville, Missouri, was designed to remember those who have served or are serving and those who paid the ultimate price for the freedoms we enjoy today. This beautiful tribute to the Perry County Veterans features Custom Cut Brentwood Polished Stone and Weston Cream stone caps.

Contact your sales representative for more information about how Semco Stone can help you with any custom cut projects.

CUSTOM STONE TRANSFORMS ANY OUTDOOR SPACE INTO WOW-WORTHY

Semco Stone's custom cut slabs can meet the needs of your lifestyle and the demands of your inspiration, while offering a perfect balance of performance and beauty in both indoor and outdoor applications.

All slabs are available in only 2¼" thickness, except Brentwood which has two thickness options, 1¼" and 2". The slabs are available in a variety of heights and lengths. The stone can be custom cut to your specifications. Now that you have been inspired by our many different slabs, you can call a sales representative for more information.

DECORATIVE EDGES

Choose from six popular edge profiles to reflect your taste & style or we can customize a profile for your project.

CUSTOM CUT SLABS

The diversity of natural stone products from Semco Stone encourages limitless design potential. However when using a natural product, color variations may occur. Selections should be made from actual samples whenever possible. To have a custom project quoted or for more information, contact your sales representative.

Each of our Brentwood slabs are unique, so we make it convenient for you to browse our selection of Brentwood slabs online.

Please visit SemcoStone.com and under Products choose Brentwood Stone. There will be two choices of thickness, 1¼" and 2". Contact your Semco Sales Representative for more details!

Tenax Poulitice Powder:

Poulitice Powder utilizes a stain process reversal technique, that draws the stain out of the stone. Designed to remove stains such as oil, grease, wine, tea, coffee, and other stains out of stone.

Proseal Ultra Premium Sealer (Dry Look):

Proseal Ultra Premium Stone Sealer is rated by fabricators as one of the best granite, marble, stone sealers to be used on natural stone. No other sealer will penetrate and protect as well as Proseal.

Ager Tiger Color Enhancer/Sealer (Wet Look):

Ager Tiger by Tenax is a fantastic sealer against oil, graffiti, and household stains. Ager Tiger provides an excellent "wet" effect stone enhancement and sealer on natural stone and is VOC Compliant! See before and after below.
